On Thursday July 20<sup>th</sup> Class 1 pupils with Mrs Joyce Pankhurst, far right, took their teddies along to the Bridge Mill, Bridgerule for a Teddy Bears Picnic. # 7 Holsworthy Walk and Talk

This month's programme has included my favourite walk which starts from Buckland Filleigh Village Hall car park. The walk takes us through the grounds of Buckland House, which is a lovely mansion currently used as a Wedding and Special Events venue, and past the adjacent church (St Mary) which boasts an unusual tiled floor and several monuments of the Fortescue family who came to the property in 1434.

All walks are graded on our programmes with Level 1 being easy, mainly flat with some suitable for motorised vehicles. Level 2 include different terrains and are between 1 and a half and 2 miles with Level 3 being more challenging with some 'up hill down dale', stiles and muddy areas and approximately 3 miles.

Walking is one of the best forms of exercise and can reduce the risk of many common conditions including heart disease, high blood pressure and Type 2 diabetes. All walks are free to attend and it is a good way to see different aspects of the district and discover some of the local history. Our Monday walks in Stanhope Park, Holsworthy start at 10.30 am from The Scout Hut next to the Leisure Centre with tea and coffee served afterwards in the Youth Centre. The Friday walks move off at 10.30 am from various locations around the area. Details can be found on our walk programme.

For further information regarding the Monday walks please contact Gillian Aston on 01409 254642. For information regarding the Friday walks please contact David Arney on 01837 861829.

#### Thank you Heather!

Once again Heather has seen that the bus shelter is kept looking really nice with flowers.

We had to do certain tests at home before we went and complete a questionnaire on what we had eaten in 24 hours and what we had eaten generally over the last few months. They also want to know what medication we take regularly and what hobbies, sports, and other activities we are regularly engaged in.

Best of all is that if they find anything wrong with us they will tell us as well as our local G.P, which is a comforting thought as we get older. At the moment the hospital has the most detailed twin database in Europe with records of 11,000 twins from across the UK and extensive information on a wide range of health and disease traits. Over 600 research papers have been published so it is vitally important to carry on the good work that this type of volunteering generates.

We hope to continue to attend for many years to come. If there are any twins out there that would like to get involved let us know!

# Bridgerule hedge and coppice group - Alan Beat

The hedge and coppice group meets once a fortnight on Saturdays through the winter months to lay hedges and

coppice small areas of woodland. Volunteers are rewarded with healthy outdoor exercise, good camaraderie (and cake), plus a share of the firewood to take home. Novices are paired with more experienced hands to learn as they work. The emphasis is on traditional skills and the safe use of hand tools including bill hook, axe and bow saw.

No two hedges are the same and each one offers its own challenges. Last winter we tackled five different projects including the hazel hedge behind the chapel, pictured here.

I'm now planning a programme for the coming winter, which for the first time will include turf and stone facing of damaged hedge banks. New volunteers are always welcome, and landowners too with potential hedge laying or small woodland management projects. Please email me on <a href="mailto:alan@thebridgemill.org.uk">alan@thebridgemill.org.uk</a> or telephone 381341.

My name is Katie Coleman Hallett and I am currently in year 10 at Budehaven. In year 10 you are required to do work experience. Work experience is when you take up a placement at a place of work of your choice for 2 weeks to gain experience in the work force. On the build up to work experience you visit the placement and fill in why you would like to work there. I chose Bude Junior school as I used to go there and I'm thinking about becoming a teacher in the future. I was lucky enough to be in the few that got selected to work there. I can not put into words how lucky and fun those two weeks

were for me, getting to know the children, and helping them in class and at lunchtimes, was amazing. I was treated as a member of staff and the placement has really helped me think about my future career. I even got offered a job after I finish school. I had full respect from everyone and the school was an enjoyable, friendly environment to work at. During my work experience I went on trips to the beach with the children and even got to go to Truro as Bude Junior were singing there in a show. I also took my dance club from Budehaven, which I do after school, with us. During our free time I had to supervise a group of children at a museum. I believe this was another great opportunity as I know now what its like to organise a trip. I would recommend Bude Junior School for work experience as it will be the most fun 2 weeks of work you will ever get!!

#### BILL STEWART— LOCAL ARTIST.

The Editor has just learnt that Bill lives locally and is a talented artist. Space in this issue does not allow me to say much about him but hopefully in the next one. I can report a lot more. That is of course if Bill allows me! In the meantime Bill says:-

I am a local artist (and play guitar in the Bridge Inn on Mondays and Wednesdays) participating in the Devon Artists Network Open Studios from 9-24 September and wondered if any 'Buzzers' would be interested in coming along to see what I do. YOUR RELIABLE LOCAL GARAGE

## Dear Buzz Readers,

What a great Revel Week we have just had despite the weather we had to endure at the carnival!

Over £2000 raised during the week for local groups, but it was a week where the great community spirit of our village shone through. From the giving of a prize or a donation to helping organise an event. Thank you so much!

The Revel Committee are so appreciative of those who spent time and effort on entering a tableaux or fancy dress. The judges commented on the high standard.

Congratulations to our Revel Queen and also to those who have taken their floats to other carnivals.

Please don't forget anything you wish to have in the next Buzz must be with me by 20th of October and I will try to oblige.

Is anyone having problems with their power supply ??? It seems to be a regular occurrence these days, that we have a power failure for no apparent reason at different times of the day/night .. (I can understand during storms/high winds etc.) but these cuts are getting more frequent . I have spoken to western power and am now keeping a log of when it happens . I will pass on the number to ring if anyone else is having problems . Kaye Snowdon The Green.

#### **NEIGHBOURHOOD WATCH NOTES**

Well, that's the summer over. Really? We can always hope for what I've known as an 'Indian Summer' - as in 'Native Americans' or is it the Indian sub-continent?

So as the nights draw in and the criminals think that they must start pinching things for their Christmas - Don't let them.

Don't leave your handbag or wallet on the bar in an unknown pub or restaurant - or even better, your smart phone. They go missing, even if you've only been to the loo.

Know your neighbours. If things aren't normal up the road, are there thieves about? If so dial 999

Always be aware of conniving schemes to make you rich - Ha Ha - it makes others rich - not you. By phone, twitter or whatever, email or letter (they still exist) don't be caught.

Store or save these and hope that you never need them.

#### Chris goes to London.!!!!

I know, most people go there but not necessarily as a twin and probably not to attend the twin research unit at St. Thomas's Hospital. My twin brother and I have been going there as volunteer's over the last 20 years or so to help with medical research into all sorts of illnesses.

By using our DNA profile and the clinical questionnaire

genetic and environmental influences on disease.

we complete on a regular basis the researchers can compare similarities and differences between identical and non-identical twins to estimate the importance of genetic and environmental influences in a wide range of illnesses. They are looking into complex diseases, in particular age-related diseases such as osteoporosis, diabetes, obesity, cardiovascular disease, and eye diseases. They also carry out research into areas such as skin disease, immunology, gastroenterology, and behaviour. By comparing the similarity of identical and non identical twins they can estimate the importance of

I really can't remember how I got involved but very glad we have, as every so often we are invited to attend the hospital and have a full scale medical. Information obtained about us both is compared against a database held to see how the ageing process is affecting our bodies.

Last year they had over 700 twins to a party on the lawn outside the Hospital and broke the world record for so many twins gathered together. Sadly we didn't go but it just shows how many twins are involved in medical research. We are also sent an annual magazine.

Noel, my twin brother and I (Noel and Chris – Christmas babies - but now 73) went last month and had a full body and bone density scan, an ECG, check on our carotid arteries, heart monitoring, memory test, weight, height, eye test, grip test, lung, kidney and liver function and many other checks which would cost a fortune if it was done privately. It lasted about 6 hours with a small break in the middle when they gave us some food (we had to fast from the previous day!) They also look at family history. These tests, our accommodation and travel expenses etc. are paid for by Medical Research Laboratories.

At the moment the research is based around the bacteria that we have in our tummies and how the food and environment affects it and therefore our

#### **DIAMOND WEDDING CELEBRATIONS**

On Thursday 12th September 1957 Ron and Marion Abbott were married at Whitstone Chapel. They were attended by David Martin, Best Man, and their two bridesmaids, Joan Abbott, Marions's Sister, and Margaret Yelland, Ron's Niece.

It is very unusual for a bride's maiden name to be the same as her married name. Following a reception at The Ye Olde Cafe' in Holsworthy they went on honeymoon by

train to Weymouth. Ron and Marion's first home together was Furze Bridgerule. Here they lived for 7 years and it was where their three children, Gary, Linda and Trevor were born.

They then moved to 2 Bridge Park where they remain today. Gary lives with his wife Shirley in Bridgerule. Lynda emigrated to Canada where she lives with her husband Bill and their family. Trevor lives in Holsworthy with his partner Marilyn. Ron and Marion are grandparents to 6 grandchildren and 4 great grandchildren. Very sadly in 2004 Tracey one of their grandchildren died following a tragic accident.

Ron and Marion have over the years both played skittles for the local teams. Ron also played football and still has a very keen interest in horse racing and enjoys a flutter or two!

Attending dances was something they both enjoyed very much. Ron still enjoys his garden and always has a lovely selection of both garden produce and beautiful flowers. Marion enjoys going to chapel and is a member of The Tamarside Singers. She also enjoys the local Village Coffee Club and going on their various trips. Ron and Marion plan to celebrate their special anniversary with a party at

The Falcon Hotel, Bude for family and friends.

CONGRATULATIONS RON AND MARION FROM US ALL!
